### Designed for Row Assembly

Intended for bulk installation, each locker is laser cut with a series of holes that help the lockers to be quickly assembled using standard power tools and simple instructions.

- > Shipped complete with all required fasteners.
- > Shop Drawings with part-specific ID numbers included.

### Precision Made in Canada

Computer-precise parts are produced using a Laser Cutter. A Brake Press with Laser-Levelling forms perfect angles. Laser Welding leaves a smooth, strong and spatter-free weld. Finished with a VOC-free, environmentally responsible powder coat.
