

Storage Locker with Shelf

Description :

Lockers up to 4' x 4' can be equipped with a sturdy steel shelf to add a second level of storage. The shelf is made from a 12ga steel frame and is filled with a strong diamond mesh. It attaches securely to the frame using a bracket and fasteners. Security features include a steel framed ceiling, a reinforced door and 2 sets of stainless steel hasps. Ideal for use in retail and industrial settings.

Specifications :

Height : 84" max. to top of ceiling (82.5" wall + 1.5" ceiling = 84" total height)

Frame : 1.5" x 1.5" , 12-gauge steel angle. Laser cut profile. Laser welded assembly.

Filled With : 10-gauge welded wire mesh (diameter .102" or 2.59 mm)

Secured By : Doors reinforced with 12 gauge steel angle crossbars
Non-removable pin hinges + secondary weld on pin
4 x Stainless steel hasps for padlock

Finish : Anti-rust phosphate dip. Powder coat RAL7037.

Designed for Row Assembly :

Intended for bulk installation, each locker is laser pre-cut with the holes needed to assemble it using common tools and simple instructions.

Shipped with standard fasteners. Made in Canada.
